

**POSTERIOR REVERSIBLE ENCEPHALOPATHY SYNDROME AND OTHER SEVERE
CENTRAL NERVOUS SYSTEM ADVERSE EVENTS IN THE NOPHO ALL2008
PROTOCOL: CLINICAL AND RADIOLOGICAL FINDINGS, GENETIC RISK FACTORS,
AND PROGNOSIS**

Stavroula Anastasopoulou. Thesis for doctoral degree 2022.

In risk factors of PRES, paragraph 5.1.2, page 28, Table 3: P-value for Immunophenotype is <0.001 instead of 0.001.

In outcome of CNS toxicities, paragraph 5.3.4, page 35: it is “Median time for last follow-up after CNS toxicity was...” instead of “Median time for last follow-up after seizures was...”

In acknowledgements, page 49: the full name of Anna Freisinger is Anna Ekesbo Freisinger.
