Errata

- Page Abstract, Methods section, second sentence should be: 241 parents.
- Page 39 should have the figure below instead of the present.
- Page 53, Main findings from Study 2, fourth section: The first four sentences should be:

Females’ HED and risk use of alcohol were predicted by perception of peers’ drinking. Females’ externalizing behaviors and social problems predicted their HED. Males’ HED and risk use were also predicted by perception of peers’ drinking, and own social problems. Parents’ ratings of externalizing behavior predicted their sons’ risk use of alcohol.

Study 2, page 2.
- Reference number 26 and 27 should change place.
- Table 3: in the model of parent rated predictors of male HED, NA referring to explained variance ($R^2$) is missing
Assessed for eligibility (n=879)
- Excluded (n=608)
  - Not meeting inclusion criteria (n=274)
  - Declined to participate/no consent (n=145)
  - Unable to contact (n=189)

Families randomized (n=271)

Allocation
- Families allocated to yComet (n=99)
  - Family withdrew from participation before completion of the baseline measurement (n=12)
  - Parents who completed baseline measurement and received allocated intervention (n=86)
- Families allocated to ParentSteps (n=86)
  - Family withdrew from participation before completion of the baseline measurement (n=11)
  - Parents who completed baseline measurement and received allocated intervention (n=75)
- Allocated to control grp (n=86)
  - Family withdrew from participation before completion of the baseline measurement (n=5)
  - Parents who completed baseline measurement and received allocated intervention (n=81)
  - Youth who completed baseline measurement (n=81)

Follow-Up 1
- Lost to follow-up
  - Parents (n=1)
  - Youth (n=5)
- Lost to follow-up
  - Parents (n=2)
  - Youth (n=5)
- Lost to follow-up
  - Parents (n=1)
  - Youth (n=1)

Analysis
- Analyzed parents (n=88)
  - Youth (n=88)
- Analyzed parents (n=71)
  - Youth (n=70)
- Analyzed parents (n=82)
  - Youth (n=81)
