Errata and Corrections

Deciphering the interplay between peripheral and central cytokine- and kynurenine pathways: importance for the pathophysiology of schizophrenia

Author: Orhan, Funda
Date: 2018-04-20
Location: Lecture hall Pharmacology, Nanna Svartz väg 2, 171 77, Karolinska Institutet, Stockholm
Time: 09.00
Department: Inst för fysiologi och farmakologi / Dept of Physiology and Pharmacology

- Page 9, Row 26, Change TDO to KMO
- Page 30, Row 14, excitation 344 and emission 495
- Page 31, Row 6, Change -350 mV to 350 mV
- Page 39, Table 1, Change "n=21" to n=22 (healthy controls)
- Page 54, Dopamine levels should be in nM and not uM
