

Errata to

Felix Liebau: "Anabolic Response to Amino Acid Supplementation in Critical Illness"  
(Doctoral thesis, Karolinska Institutet, Stockholm 2019, ISBN 978-91-7831-591-8)

P. 6, third paragraph in section 1.2.5,

"In one RCT by Rugeles et al., 115 patients were randomized"

should instead read:

"... 80 patients..."

P. 7, second paragraph in section 1.2.6,

"In a nonrandomized study in trauma and sepsis patients, a protein dose of 1.2 g/kg preadmission BW was found to optimally support body protein mass"

should instead read:

"... protein dose of 1.5 g/kg of fat-free body mass on day 0 corrected for overhydration, equivalent to 1.0 g/kg actual body weight on day 0..."

P. 30, first paragraph,

"WB flux for phenylalanine,  $Q_p = R_a\text{Phe}$ , representing WB protein breakdown"

should instead read:

"... representing the sum of appearance of phenylalanine from WB protein breakdown and from dietary intake"

P. 46, caption to Fig. 13,

"unpublished data..."

should instead refer to the article (published under an open access license):

Rooyackers, O., et al., High protein intake without concerns? Crit Care, 2017. 21(1): p. 106
